

**IN THE SPECIFICATION:**

Please amend the paragraph beginning on page 1, line 14 as follows:

**DE-A-101-019-225** DE-A 101 09 225 describes generally polymer compositions containing polyamide, graft polymer, vinyl (co)polymer, compatibility promoter and ultrafine mineral particles with anisotropic particle geometry. The composition according to the present invention is a selection with regard to this disclosure. In **DE-A-101-019-225** DE-A 101 09 225 it is not mentioned that the compositions described therein can be lacquered online.
